

Create Added Value with Advanced UK Enhanced Managed Print Services

Enhanced Managed Print Services

MPS should be much more than a mere service agreement with SLAs. Our Enhanced MPS encompasses the entire lifecycle of documents, from creation through to end-of-life destruction.

Print remains a key communication medium, and your digital workplace transformation program should be driving cost efficiency and maximising productivity. Enhanced MPS simplifies your supply chain, benefits all departments and employees, and strengthens your organisation in times of profound change.

THE EFFECTIVENESS OF MPS

Managed Print Services (MPS) brings a strategic approach to managing your print costs, typically reducing your overall spend by 30% annually. With 42% of office print being wasted, change is due!

MPS also expedites technical support, streamlines your billing, increases employee productivity, and is critical to your business continuity planning. These are critical factors in 'the new normal', where there are mixed fleets and remote workers.

We lead the industry in MPS: enjoy our 42% remote fix success rate, with an average fix completed within ten minutes!

Managed Print Services

ENVIRONMENTAL SUSTAINABILITY – discover fresh approaches to eliminate unnecessary printing and reduce your carbon footprint, usage and waste.

INFORMATION SECURITY – protect your intellectual property and personal data with integrated CISCO and McAfee 24x7 protection.

AUTOMATE SERVICE – our proactive support model monitors, maintains, manages, and services your entire print environment, fixing problems before they impact your employees or your business.

SIMPLIFY MIXED FLEETS – manage multiple brands all under one contract, with a single tailored SLA and co-terminus equipment refresh schedule.

DEDICATED SUPPORT TEAM – benefit from a single point of contact within our UK-based helpdesk team, working with you and our transparent fleet management portal so you can manage your print operations dynamically.

PERSONALISED ACCOUNT MANAGEMENT – providing quarterly reviews, your designated account manager knows your business and is always on-call. You benefit from managed expenditure and clear reporting on costs and usage.

FINANCIAL ADVANTAGES – with fewer invoices, no capital investments on retained devices, and a guided approach to ensure the optimum device deployment levels, you're always controlling expenditure.

ADVANCED'S OWN MPS APP – we invested in support! Our unique MPS service app, reports faults, often before the user realises there is one!

Your staff don't have to try to identify the machine or relate the error codes. And with our 42% Remote Fix Rate of under ten minutes, you'll surely be impressed!

Level 4 Enhanced MPS Approach

Integrate Sustainability with Print Releaf™ ensures a 100% neutral carbon footprint, as we plant new trees to offset your total printing output. Important for capturing the modern environmentally aware client and employees.

Software to improve accounting functions, so you can accurately charge internal departments, projects and clients.

Cyber security services from initial risk assessments through to your organisation gaining the UK government-backed Cyber Essential PLUS quality standard.

'Appification', with a growing list of printer-based apps to enhance your business processes. As an accredited Xerox app developer, we build these apps for you!

Process mapping, essential for business continuity and the deployment of workflow software, our specialist team can document your business processes to reveal automation and control opportunities.

Total Lifecycle Management of everything from document scanning, storage, destruction, postal mail automation, 3D printing, Facilities Management and much more. With a service schedule designed for your unique requirements, we believe it's the most comprehensive offering in the United Kingdom.
