

For Business Continuity and Automation  
you Need Xerox™ DocuShare Flex

# Xerox™ Document Management 60-day Trial

Proven globally, and with the highest pedigree, Xerox DocuShare Flex is the perfect solution to drive your programme of digital transformation.

Available via Advanced UK, the original Xerox Platinum Partner, you can deploy this leading document management and workflow automation solution free of charge for 60 days\*, including the configuration consultancy, and see for yourself how your organisation could be made more robust and more profitable.

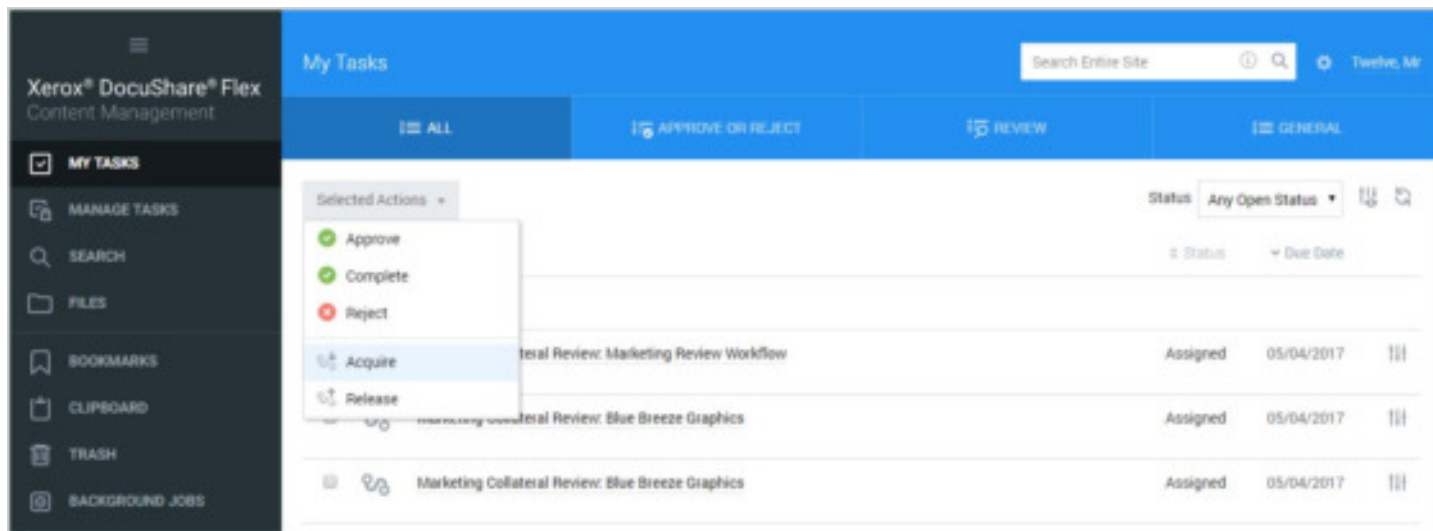

## **AUTOMATE YOUR PROCESSES**

*Xerox DocuShare Flex was designed to help SMBs and enterprise departmental teams easily manage and organise their business content and set up business rules to automate and drive common processes.*

*It has tools you need to help you manage your business effectively, securely, and with the ease of use you've been waiting for.*

# Resilience: Never again let your business processes suffer through lack of access to critical paper or digital documents

## Introducing Xerox DocuShare Flex

It's a 100% MS-Azure Cloud workflow and process automation platform to control all of your corporate documents across the business or department.

DocuShare® Flex helps you categorize, store, organize and manage the full lifecycle of your business content in a secure central repository in the cloud. Employees manage their content through the intuitive interface where they can easily organise files.

Embark on digital transformation even further by using web forms to digitise and automate your processes. Such forms eliminate paper and, thus, manual data entry: go paperless and digital, by letting workers capture information dynamically and on the fly, anywhere and from many devices (mobile, laptops, PCs) in easy, fillable forms. Webforms can be designed by your users via simple templates.

DocuShare Flex: it's business continuity as it should be. Easy.
