

## Yooz is the Award-Winning Leader in Accounts Payable Automation

# Yooz Accounts Payable Automation

*Any digital transformation program must incorporate the finance department, and Yooz is the #1 A/P and Purchase to Pay solution for integration to more than 250 of the World's leading financial applications.*

*With users able to be up and running within one hour, Yooz harnesses the true power of AI. It's an all-in-one solution to automate every step of your purchase to pay (P2P) process, from purchase order request through to payment.*

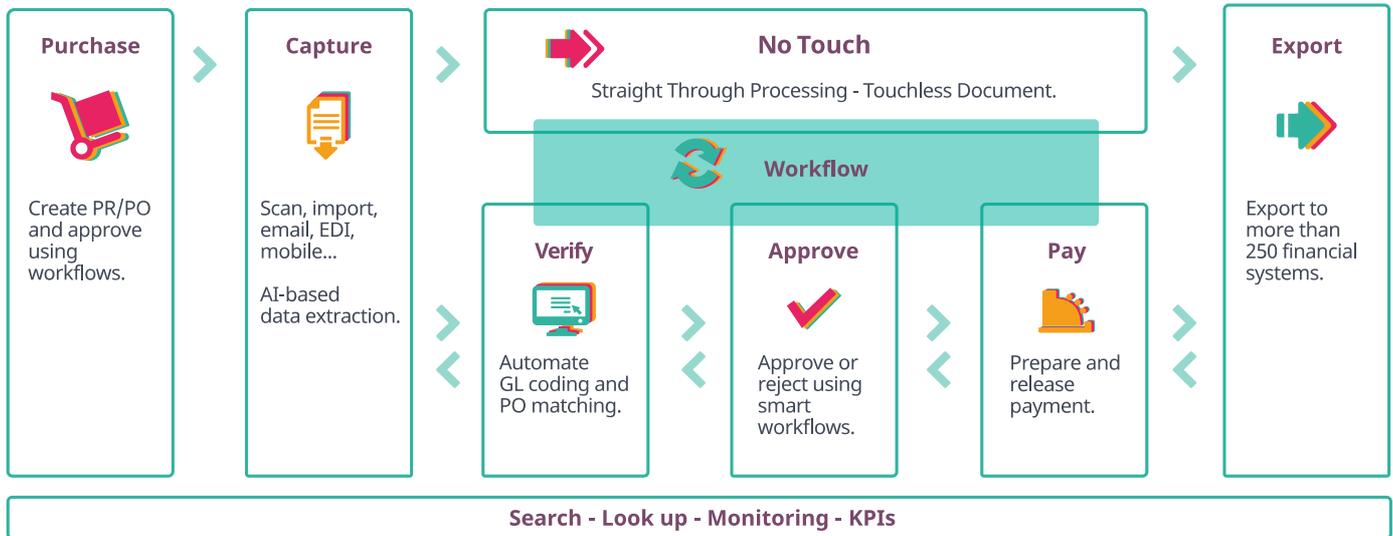

### **DIGITAL TRANSFORMATION IN FINANCE**

Since document management systems first appeared in the 1980's, the goal has been the automation of the mundane tasks across the finance department.

With Yooz, you gain that automation, while delivering fraud protection, improved management accounting, and an ROI which can be measured in weeks. The result: 80% cost reductions across multiple roles, and a more secure, flexible business.

More than 100,000 companies rely on Yooz, including all of the Top 5 accounting firms.

## Why we Recommend Yooz

To achieve the appearance of automation throughout the entire P2P process, competitive systems feature complex software, dated user interfaces, and expensive licensing per user with associated IT administration overheads.

With Yooz, it's all about simplicity: connect your cloud license to your ERP or financial application, and scan or email your documents. You'll be operational within an hour. 80% of your A/P invoices will be fully automated without any user invention.

As part of your digital transformation and business continuity planning, eliminating your reliance on paper while keeping your staff working from anywhere makes sense, and nothing makes a business stronger than reducing your staffing overheads.

## Benefits at a glance

- ✓ No user licensing!
- ✓ Connect to more than 250 finance systems;
- ✓ Pay only for the invoices you process;
- ✓ Packages start from £129 per month;
- ✓ Incredible return on investment (ROI);
- ✓ Supports multi-currency & multi-tax jurisdiction;
- ✓ Mobile and browser-based access;
- ✓ Comprehensive workflow modules for purchase order requisitions;
- ✓ Automated GL Code and PO matching.
